Our commitment to our employees and clients as well as to dedication and trust, have led to iLynx's recognition as one of the fastest growing consulting firm in the DC Metro area. Employment at iLynx means a flexible, collaborative, and open-minded work environment. Learn more at www.ilynxinc.com/careers.

POSITION DESCRIPTION:
iLynx is seeking a Technical Specialist to assist in the migration effort from 11.1.2.3.700 to Oracle Enterprise Performance Management Cloud. Three existing applications will need to be moved, Budget Formulation and Execution Functionality including a Budget Book, a Projections application and a Human Capital Planning application.
The current Oracle Data Integrator and Oracle Financial Data Management Enterprise
Edition functionality will need to be replaced with other ETL tools such as EPM automate.

SPECIFIC RESPONSIBILITES:
✓ Replace on premise Hyperion solution with Oracle Enterprise Performance Management Cloud. Hyperion is integrated with PeopleSoft Financials application and utilizes Lawson position and payroll data.
✓ The primary responsibility will be assisting with the migration of Hyperion11.1.2.3.700 to Oracle Enterprise Performance Management Cloud. Preparation and support for the design, build, development, data conversion, integration, and test activities for the migration along with identifying areas for enhancement in efficiency and user experience.
✓ The Technical Specialist will be hands on helping the team to migrate all three existing on premise production applications including a Human Capital Planning application with significant customizations to the EPM Cloud.
✓ The Technical Specialist will be responsible for converting existing Oracle Data Integrator and Oracle Financial Data Management Enterprise Edition metadata nightly loads, and actuals, position, payroll, and other data as required to load data from existing on premise applications to the EPM Cloud.
✓ The Technical Specialist will be responsible for integrating on-premise PeopleSoft financials with EPM cloud.

MINIMUM/REQUIRED QUALIFICATIONS:
✓ Must have executed at least one successful end-to-end Oracle EPM Cloud conversion from on premise Hyperion application for a Federal Government Client.
✓ Knowledge and experience working with Oracle Hyperion Enterprise Performance Management Planning or Public Sector Planning and Budgeting application 11.x or higher;
✓ Knowledge and experience loading source data into Hyperion with Oracle Data Integrator; must have hands on experience converting ODI to EPM automate
✓ Must have knowledge and experience working with Human Capital Planning loading employee and position-based data.

- ✓ Knowledge and experience configuring dimensions with optimal dimension design and identifying alternate hierarchies;
- ✓ Knowledge and experience configuring Essbase application components, business rules and calc scripts and calc script customizations
- ✓ Knowledge and experience with EPM Security administration.
- ✓ Knowledge and experience with Smartview, developing Data forms, and developing Web Forms;
- ✓ Experience developing reports with Hyperion Financial Reporting Studio in the EPM Cloud
- ✓ Experience with report (Budget) book development with Hyperion Financial Reporting Studio reports in Oracle EPM Cloud.
- ✓ Must have experience developing ODI processes to query Oracle EPM Hyperion product HSP infrastructure SQL tables for meta data transformation.
- ✓ Must have experience developing Oracle EPM cloud applications that leverage standardized Federal Budget Object Classification codes (BOCs) as the basis for budget execution and formulation.
- ✓ Must have experience implementing Oracle EPM Cloud applications with the Scrum Agile framework.
- ✓ Note: Knowledge and experience with the following is a plus, but not required:
- ✓ Experience with PeopleSoft Financials or a comparable ERP and Lawson HR or a comparable Payroll application, and specifically the integration with Hyperion Enterprise Performance Management.
- ✓ Experience with additional EPM Cloud implementations or migrations.
- ✓ Experience with Quest Stat change management or a comparable change management application.

EDUCATION

The Offeror shall propose a candidate with a bachelor's degree from an accredited college or university with a major in Computer Science, Information Systems, Engineering, Business, or other related scientific or technical discipline.
